

Apple Pay Now Available To PNC Bank Customers

Offering a convenient way to pay

PITTSBURGH, Nov. 3, 2014 /[PRNewswire](#)/ -- PNC Bank now offers its customers access to Apple Pay, a new service that will transform mobile payments.

By adding a credit or debit card to Apple Pay, the actual card numbers are not stored on the device or Apple servers. Instead, a unique device account number is assigned, encrypted and stored on the customer's device. Each transaction is authorized with a one-time unique dynamic security code, instead of using the security code from the back of the card.

"As security remains top of mind for PNC and our customers, the features of Apple Pay make it another convenient way for how consumers make in-store purchases today," said Henry Fulton, Retail Assets executive for PNC. "We look for Apple Pay to help redefine the way individuals spend their money."

Apple Pay works with iPhone 6 and iPhone 6 Plus. Paying for goods and services within apps with Apple Pay is compatible with iPhone 6, iPhone 6 Plus, iPad Air 2 and iPad mini 3.
