

PNC Institutional Asset Management® Launches PNC Gifting PortalSM

New solution offers holistic approach to nonprofits sponsoring donor-advised funds

PITTSBURGH, March 8, 2021 – PNC Bank’s Institutional Asset Management® (IAM) organization announced the launch of its newest offering for nonprofit organizations – the PNC Gifting PortalSM – intended to streamline how charitable organizations manage donor-advised funds (DAFs), an increasingly popular designated account that holds funds allocated to charitable causes by a sponsoring nonprofit at the recommendation of the donor.

The portal is a significant investment in technical capabilities offered by IAM to its nonprofit clients, many of which regularly face challenges effectively managing assets while navigating a complex regulatory environment.

“Charitable organizations must increasingly do more with less, and we created this offering with that challenge in mind” said Henri Cancio-Fitzgerald, managing director of Nonprofit Solutions for PNC Institutional Asset Management. “The PNC Gifting Portal is designed to help our nonprofit clients better manage investment, administrative and philanthropic tasks, so their focus can be on their most important work, achieving their missions.”

The PNC portal offers a secure online platform that provides the ability to streamline administrative tasks to charitable organizations, while providing a seamless donation experience to DAF contributors. Access to the portal is provided to nonprofit clients through IAM services offered as part of a bundled solution, including:

- Investment management, custody and responsible investing services;
- Administrative support with subaccounting, recordkeeping and real-time transaction processing;
- Access to educational resources and a dedicated team to manage investment; and
- Administration of planned giving programs.

“The bundling of our services as part of the PNC Gifting Portal offering sets us apart from competitors in this space. We are providing clients an opportunity to upgrade current abilities or create a customized platform while a team of experts handles investments and administration,” said Cancio-Fitzgerald.

Best suited for charitable organizations with over \$1 million in DAF assets, the PNC Gifting Portal and bundled solution offering is now available. For more information, visit the PNC Gifting Portal section of [pnc.com](https://www.pnc.com).
